AN EXCURSION.

Oahu Railway Company Gives an Excursion - Ewa Plantation Visited - Pearl City Viewed.

of the Oahu Railway and Land Co., to some twenty citizens of Honolulu, officers of the Charleston and visitors to the Islands.

About 9 o'clock yesterday morn ing those accepting the invitation gathered at the Honolulu depot where the directors' car was attached to a special engine, ready to start as soon as an open car was ladened with some suspiciously looking freight that was afterwards investigated by the excursionists to their

delight and satisfaction. Mr. B. F. Dillingham, General Manager of the Company, and Supintendent Ashley were on time to attend the excursionists who were His Excellency A. P. Peterson, Attorney-General; His Excellency Jno. A Cummins, Minnister of Foreign Affairs; His Excellency John L. Stevens, U. S. Minister; Lieut. Dyer and son, Geo. Dyer, Capt. G. C. Remey, Dr. Geo. W. Woods, Mr. Muse, Captain of Marines of the Charleston; Hon. Jose Samayoa and Weber, Mr. John A. Hassinger, Mr. J. J. Williams, Mr. H. Bigelow, Ex-Large numbers of visitors nightly aminer reporter; Mr. Lionel Stagge, Chronicle reporter; Mr. W. A. Peares, Ohio, and a representative of the ADVERTISER.

The party proceeded along the road toward the Ewa Plantation, taking in by sight all objects of interest along the way, while Messrs.
Dillingham and Ashley kindly ex-

plained things in general. Arriving at the Ewa Plantation, the excursionists took the makai side first. All seemed to be impressed with the rapid growth of the young plantation, the beauty of its surroundings and the excellent location. The artesian wells, six in number, afforded a point of interest. The water from any two of the wells is sufficient to water the cane now growing on about 775 acres, thus plantation has ample means for getting water to irrigate a much larger acreage. The mauka side of the plantation was also visited, where workmen are putting in machinery for forcing the water from the two wells bored there.

Of this only 775 acres are planted with cane at present. The second crop is expected to be cut from over 1,000 acres, while the third crop from over 2,000, which with the mill in operation will be one of the objective points of great interest on Oahu, or for that matter on any of the

From the plantation the party, with a sort of instinctive feeling, which seemed to affect all of the excursionists, returned to Remond Grove. Here was a delicious lunch served by the catering of the Hamilton House steward. After the lunch Mr. Dillingham took the party out to view Pearl City, returning by the way of the depot where the spe-cial was again boarded, this time for

The excursion was a very pleasant one, thoroughly enjoyed by all. In fact, little else could be had than a pleasant time for the attentions and efforts of the manager and superin-

The Tourists' Guide.

Almost every mail brings letters of commendation of this popular work. Dr. Geo. H. Martin of San Francisco, who resided here and practiced in his profession for several years, writes: "I must drop you a line to tell you how much I appreciate your Tourists' Guide. It is simply perfect; and to one who had been there, it brings back most vividly the beauties of your Paradise of the Pacific. To those who have not been there, it will no doubt seem which they ought to investigate. In it is also a vast amount of valuable information, which all who are inter ested in the Islands ought to know."

"Mark Twain" (S. L. Clemens), writes a characteristic letter from Hartford, that "the perusal of the
